She also noted that funds had been allocated for general repairs and maintenance. She explained that the overall budget amount was higher, but because Phases 3 and 4 had been platted they were able to account for all the increase without having to increase the overall assessment amounts to the platted lots.

Ms. Burns asked if any members of the public had any comments, and one resident named Darlene Nagi did. She stated she lived at 732 Citrus Drive, and she asked if they had a timeframe on when the roads would be cleaned up as well as the piping that was sticking out of the ground on Citrus Isle Boulevard, and Mr. Tindall noted that he would follow up with her. She also noted that she had talked to Mr. Tindall earlier in the day regarding the back easement where she was bit a recluse spider and added that her deed specified that it was not her duty to maintain it because it was not her property, so it needed to be maintained by someone else. Ms. Burns replied that they had looked at the lot and it was part of her property, but that there was a utility easement for the

district on there in case the fence needed to be repaired, so it was her responsibility to maintain it. Ms. Nagy noted that the sand that had been put down to even out spots on the easement had started to sink in and made the area impossible to mow and asked for suggestions. Ms. Burns replied that she would have to go through the HOA to get any landscape approvals. She also expressed concern about people swimming in the pool in Citrus Pointe that were bring food into the pool and eating. SECTION VII

September 24, 2021

Board of Supervisors
Holly Hill Road East Community Development District
219 East Livingston Street
Orlando, FL 32801

The following represents our understanding of the services we will provide *Holly Hill Road East Community Development District*.

You have requested that we audit the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of *Holly Hill Road East Community Development District*, as of September 30, 2021, and for the year then ended and the related notes to the financial statements, which collectively comprise *Holly Hill Road East Community Development District's* basic financial statements as listed in the table of contents. We are pleased to confirm our acceptance and our understanding of this audit engagement by means of this letter. Our audit will be conducted with the objective of our expressing an opinion on each opinion unit applicable to those basic financial statements.

Accounting principles generally accepted in the United States of America, (U.S. GAAP), as promulgated by the Governmental Accounting Standards Board (GASB) require that certain required supplementary information (RSI), such as management's discussion and analysis (MD&A), be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by GASB, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. As part of our engagement, we will apply certain limited procedures to the required supplementary information (RSI) in accordance with auditing standards generally accepted in the United States of America, (U.S. GAAS). These limited procedures will consist primarily of inquiries of management regarding their methods of measurement and presentation, and comparing the information for consistency with management's responses to our inquiries. We will not express an opinion or provide any form of assurance on the RSI. The following RSI is required by U.S. GAAP. This RSI will be subjected to certain limited procedures but will not be audited:

1. Management's Discussion and Analysis

Auditor Responsibilities

We will conduct our audit in accordance with U.S. GAAS and the standards for financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the basic financial statements regarding the District's general fund. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error, misappropriation of assets, or violations of laws, governmental regulations, grant agreements, or contractual agreements.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. If appropriate, our procedures will therefore include tests of documentary evidence that support the transactions recorded in the accounts, tests of the physical existence of inventories, and direct confirmation of cash, investments, and certain other assets and liabilities by correspondence with creditors and financial institutions. As part of our audit process, we will request written representations from your attorneys, and they may bill you for responding. At the conclusion of our audit, we will also request certain written representations from you about the basic financial statements and related matters.

Because of the inherent limitations of an audit, together with the inherent limitations of internal control, an unavoidable risk that some material misstatements (whether caused by errors, fraudulent financial reporting, misappropriation of assets, or violations of laws or governmental regulations) may not be detected exists, even though the audit is properly planned and performed in accordance with U.S. GAAS and Government Auditing Standards.

In making our risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the basic financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. However, we will communicate to you in writing concerning any significant deficiencies or material weaknesses in internal control relevant to the audit of the financial statements that we have identified during the audit. Our responsibility as auditors is, of course, limited to the period covered by our audit and does not extend to any other periods.

We cannot provide assurance that unmodified opinions will be expressed. Circumstances may arise in which it is necessary for us to modify our opinions or add emphasis-of-matter or other-matter paragraphs. If our opinions on the basic financial statements are other than unmodified, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the audit or are unable to form or have not formed opinions, we may decline to express opinions or to issue a report as a result of this engagement.

Compliance with Laws and Regulations

As previously discussed, as part of obtaining reasonable assurance about whether the basic financial statements are free of material misstatement, we will perform tests of *Holly Hill Road East Community Development District's* compliance with the provisions of applicable laws, regulations, contracts, and agreements. However, the objective of our audit will not be to provide an opinion on overall compliance and we will not express such an opinion.

Management Responsibilities

Our audit will be conducted on the basis that management acknowledge and understand that they have responsibility:

- a. For the preparation and fair presentation of the basic financial statements in accordance with accounting principles generally accepted in the United States of America;
- b. For the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error, fraudulent financial reporting, misappropriation of assets, or violations of laws, governmental regulations, grant agreements, or contractual agreements; and
- c. To provide us with:
 - i. Access to all information of which management is aware that is relevant to the preparation and fair presentation of the basic financial statements such as records, documentation, and other matters;
 - ii. Additional information that we may request from management for the purpose of the audit; and
 - iii. Unrestricted access to persons within the entity from whom we determine it necessary to obtain audit evidence.
- d. For including the auditor's report in any document containing financial statements that indicates that such financial statements have been audited by the entity's auditor;
- e. For identifying and ensuring that the entity complies with the laws and regulations applicable to its activities;
- f. For adjusting the financial statements to correct material misstatements and confirming to us in the management representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the current year period under audit are immaterial, both individually and in the aggregate, to the financial statements as a whole; and
- g. For acceptance of nonattest services, including identifying the proper party to oversee nonattest work;
- h. For maintaining adequate records, selecting and applying accounting principles, and safeguarding assets;
- i. For informing us of any known or suspected fraud affecting the entity involving management, employees with significant role in internal control and others where fraud could have a material effect on the financials; and
- j. For the accuracy and completeness of all information provided.

With regard to the supplementary information referred to above, you acknowledge and understand your responsibility: (a) for the preparation of the supplementary information in accordance with the applicable criteria; (b) to provide us with the appropriate written representations regarding supplementary information; (c) to include our report on the supplementary information in any document that contains the supplementary information and that indicates that we have reported on such supplementary information; and (d) to present the supplementary information with the audited financial statements, or if the supplementary information will not be presented with the audited financial statements, to make the audited financial statements readily available to the intended users of the supplementary information no later than the date of issuance by you of the supplementary information and our report thereon.

As part of the audit, we will assist preparation of your financial statements and related notes. You will be required to acknowledge in the written representation letter our assistance with preparation of the financial statements and that you have accepted responsibility for them.

With respect to any nonattest services we perform, such as drafting the financial statements and proposing adjusting or correcting journal entries to be reviewed and approved by management, we will not assume management responsibilities on behalf of the District. However, we will provide advice and recommendations to assist management of the District in performing its responsibilities.

The District's management is responsible for (a) making all management decisions and performing all management functions; (b) assigning a competent individual to oversee the services; (c) evaluating the adequacy of the services performed; (d) evaluating and accepting responsibility for the results of the services performed; and (e) establishing and maintaining internal controls, including monitoring ongoing activities.

Our responsibilities and limitations of the engagement are as follows:

- We will perform the services in accordance with applicable professional standards, including Government Auditing Standards
- The engagement is limited to the drafting of financial statements as previously outlined. Our firm, in its sole professional judgment, reserves the right to refuse to do any procedure or take any action that could be construed as making management decisions or assuming management responsibilities, including determining account codings and approving journal entries.

Government Auditing Standards require that we document an assessment of the skills, knowledge, and experience of management, should we participate in any form of the preparation of the basic financial statements and related schedules or disclosures as these actions are deemed a non-audit service.

As part of our audit process, we will request from management written confirmation concerning representations made to us in connection with the audit.

Reporting

We will issue a written report upon completion of our audit of *Holly Hill Road East Community Development District's* basic financial statements. Re: \$4,160,000 Holly Hill Road East Community Development District (City of Davenport, Florida)
Special Assessment Bonds, Series 2017

Dear Ms. Cruz:

AMTEC has prepared certain computations relating to the above referenced bond issue (the "Bonds") at the request of the Holly Hill Road East Community Development District (the "District")

The scope of our engagement consisted of preparing the computations shown in the attached schedules to determine the Rebatable Arbitrage as described in Section 103 of the Internal Revenue Code of 1954, Section 148(f) of the Internal Revenue Code of 1986, as amended (the "Code"), and all applicable Regulations issued thereunder. The methodology used is consistent with current tax law and regulations and may be relied upon in determining the rebate liability. Certain computational methods used in the preparation of the schedules are described in the Summary of Computational Information and Definitions.

Our engagement was limited to the computation of Rebatable Arbitrage based upon the information furnished to us by the District. In accordance with the terms of our engagement, we did not audit the information provided to us, and we express no opinion as to the completeness, accuracy or suitability of such information for purposes of calculating the Rebatable Arbitrage.

We have scheduled the next Report as of October 31, 2021. Thank you and should you have any questions, please do not hesitate to contact us.

Very truly yours,

Michael J. Scarfo
Senior Vice President

SUMMARY OF COMPUTATIONAL INFORMATION AND DEFINITIONS

COMPUTATIONAL INFORMATION

1. For purposes of computing Rebatale Arbitrage, investment activity is reflected from November 9, 2017, the date of the closing, to October 31, 2020, the Computation Period. All nonpurpose payments and receipts are future valued to the Computation Date of November 9, 2022.
2. Computations of yield are based on a 360-day year and semiannual compounding on the last day of each compounding interval. Compounding intervals end on a day in the calendar year corresponding to Bond maturity dates or six months prior.
3. For investment cash flow, debt service and yield computation purposes, all payments and receipts are assumed to be paid or received respectively, as shown on the attached schedules.
4. Purchase prices on investments are assumed to be at fair market value, representing an arm's length transaction.
5. During the period between November 9, 2017 and October 31, 2020, the District made periodic payments into the Debt Service Fund that were used, along with the interest earned, to provide the required debt service payments.

Under Section 148(f)(4)(A), the rebate requirement does not apply to amounts in certain bona fide debt service funds. The Regulations define a bona fide debt service fund as one that is used primarily to achieve a proper matching of revenues with principal and interest payments within each bond year. The fund must be depleted at least once each bond year, except for a reasonable carryover amount not to exceed the greater of the earnings on the fund for the immediately preceding bond year or 1/12th of the principal and interest payments on the issue for the immediately preceding bond year.

We have reviewed the Debt Service Fund and have determined that the funds deposited have functioned as a bona fide debt service fund and are not subject to the rebate requirement.

DEFINITIONS

6. Computation Date

November 9, 2022.

7. Computation Period

The period beginning on November 9, 2017, the date of the closing, and ending on October 31, 2020.

8. Bond Year

Each one-year period (or shorter period from the date of issue) that ends at the close of business on the day in the calendar year that is selected by the Issuer. If no day is selected by the Issuer before the earlier of the final maturity date of the issue or the date that is five years after the date of issue, each bond year ends at the close of business on the anniversary date of the issuance.

9. Bond Yield

The discount rate that, when used in computing the present value of all the unconditionally payable payments of principal and interest with respect to the Bonds, produces an amount equal to the present value of the issue price of the Bonds. Present value is computed as of the date of issue of the Bonds.

10. Taxable Investment Yield

The discount rate that, when used in computing the present value of all receipts of principal and interest to be received on an investment during the Computation Period, produces an amount equal to the fair market value of the investment at the time it became a nonpurpose investment.

11. Issue Price

The price determined on the basis of the initial offering price at which price a substantial amount of the Bonds was sold.

12. Rebatable Arbitrage

The Code defines the required rebate as the excess of the amount earned on all nonpurpose investments over the amount that would have been earned if such nonpurpose investments were invested at the Bond Yield, plus any income attributable to the excess. Accordingly, the Regulations require that this amount be computed as the excess of the future value of all the nonpurpose receipts over the future value of all the nonpurpose payments. The future value is computed as of the Computation Date using the Bond Yield.

13. Funds and Accounts

The Funds and Accounts activity used in the compilation of this Report was received from the District and US Bank, Trustee, as follows:

Fund / Account	Account Number
Revenue	249066000
Interest	249066001
Sinking	249066002
Acquisition and Construction	249066003
Amenity Project	249066004
Debt Service Reserve	249066005
Cost of Issuance	249066006
Prepayment	249066007
General	249066008

METHODOLOGY

Bond Yield

The methodology used to calculate the bond yield was to determine the discount rate that produces the present value of all payments of principal and interest through the maturity date of the Bonds.

Investment Yield and Rebate Amount

The methodology used to calculate the Rebateable Arbitrage, as of October 31, 2020, was to calculate the future value of the disbursements from all funds, subject to rebate, and the value of the remaining bond proceeds, at the yield on the Bonds, to November 9, 2022. This figure was then compared to the future value of the deposit of bond proceeds into the various investment accounts at the same yield. The difference between the future values of the two cash flows, on November 9, 2022, is the Rebateable Arbitrage.

Re: \$2,800,000 Holly Hill Road East Community Development District (City of Davenport, Florida)
Special Assessment Bonds, Series 2018

Dear Ms. Cruz:

AMTEC has prepared certain computations relating to the above referenced bond issue (the "Bonds") at the request of the Holly Hill Road East Community Development District (the "District")

The scope of our engagement consisted of preparing the computations shown in the attached schedules to determine the Rebatale Arbitrage as described in Section 103 of the Internal Revenue Code of 1954, Section 148(f) of the Internal Revenue Code of 1986, as amended (the "Code"), and all applicable Regulations issued thereunder. The methodology used is consistent with current tax law and regulations and may be relied upon in determining the rebate liability. Certain computational methods used in the preparation of the schedules are described in the Summary of Computational Information and Definitions.

Our engagement was limited to the computation of Rebatale Arbitrage based upon the information furnished to us by the District. In accordance with the terms of our engagement, we did not audit the information provided to us, and we express no opinion as to the completeness, accuracy or suitability of such information for purposes of calculating the Rebatale Arbitrage.

We have scheduled the next Report as of October 31, 2021. Thank you and should you have any questions, please do not hesitate to contact us.

Very truly yours,

Michael J. Scarfo
Senior Vice President

SUMMARY OF COMPUTATIONAL INFORMATION AND DEFINITIONS

COMPUTATIONAL INFORMATION

1. For purposes of computing Rebatale Arbitrage, investment activity is reflected from November 15, 2018, the date of the closing, to October 31, 2020, the Computation Period. All nonpurpose payments and receipts are future valued to the Computation Date of November 15, 2023.
2. Computations of yield are based on a 360-day year and semiannual compounding on the last day of each compounding interval. Compounding intervals end on a day in the calendar year corresponding to Bond maturity dates or six months prior.
3. For investment cash flow, debt service and yield computation purposes, all payments and receipts are assumed to be paid or received respectively, as shown on the attached schedules.
4. Purchase prices on investments are assumed to be at fair market value, representing an arm's length transaction.
5. During the period between November 15, 2018 and October 31, 2020, the District made periodic payments into the Debt Service Fund that were used, along with the interest earned, to provide the required debt service payments.

Under Section 148(f)(4)(A), the rebate requirement does not apply to amounts in certain bona fide debt service funds. The Regulations define a bona fide debt service fund as one that is used primarily to achieve a proper matching of revenues with principal and interest payments within each bond year. The fund must be depleted at least once each bond year, except for a reasonable carryover amount not to exceed the greater of the earnings on the fund for the immediately preceding bond year or 1/12th of the principal and interest payments on the issue for the immediately preceding bond year.

We have reviewed the Debt Service Fund and have determined that the funds deposited have functioned as a bona fide debt service fund and are not subject to the rebate requirement.

DEFINITIONS

6. Computation Date

November 15, 2023.

7. Computation Period

The period beginning on November 15, 2018, the date of the closing, and ending on October 31, 2020.

8. Bond Year

Each one-year period (or shorter period from the date of issue) that ends at the close of business on the day in the calendar year that is selected by the Issuer. If no day is selected by the Issuer before the earlier of the final maturity date of the issue or the date that is five years after the date of issue, each bond year ends at the close of business on the anniversary date of the issuance.

9. Bond Yield

The discount rate that, when used in computing the present value of all the unconditionally payable payments of principal and interest with respect to the Bonds, produces an amount equal to the present value of the issue price of the Bonds. Present value is computed as of the date of issue of the Bonds.

10. Taxable Investment Yield

The discount rate that, when used in computing the present value of all receipts of principal and interest to be received on an investment during the Computation Period, produces an amount equal to the fair market value of the investment at the time it became a nonpurpose investment.

11. Issue Price

The price determined on the basis of the initial offering price at which price a substantial amount of the Bonds was sold.

12. Rebatable Arbitrage

The Code defines the required rebate as the excess of the amount earned on all nonpurpose investments over the amount that would have been earned if such nonpurpose investments were invested at the Bond Yield, plus any income attributable to the excess. Accordingly, the Regulations require that this amount be computed as the excess of the future value of all the nonpurpose receipts over the future value of all the nonpurpose payments. The future value is computed as of the Computation Date using the Bond Yield.

13. Funds and Accounts

The Funds and Accounts activity used in the compilation of this Report was received from the District and US Bank, Trustee, as follows:

Fund / Account	Account Number
Revenue	26758000
Acquisition & Construction	26758001
Interest	26758002
Sinking	26758003
Prepayment	26758004
Debt Service Reserve	26758005

METHODOLOGY

Bond Yield

The methodology used to calculate the bond yield was to determine the discount rate that produces the present value of all payments of principal and interest through the maturity date of the Bonds.

Investment Yield and Rebate Amount

The methodology used to calculate the Rebatable Arbitrage, as of October 31, 2020, was to calculate the future value of the disbursements from all funds, subject to rebate, and the value of the remaining bond proceeds, at the yield on the Bonds, to November 15, 2023. This figure was then compared to the future value of the deposit of bond proceeds into the various investment accounts at the same yield. The difference between the future values of the two cash flows, on November 15, 2023, is the Rebatable Arbitrage.

Re: \$3,660,000 Holly Hill Road East Community Development District (City of Davenport, Florida)
Special Assessment Bonds, Series 2020 (Assessment Area 3 Project)

Dear Ms. Cruz:

AMTEC has prepared certain computations relating to the above referenced bond issue (the "Bonds") at the request of the Holly Hill Road East Community Development District (the "District")

The scope of our engagement consisted of preparing the computations shown in the attached schedules to determine the Rebtable Arbitrage as described in Section 103 of the Internal Revenue Code of 1954, Section 148(f) of the Internal Revenue Code of 1986, as amended (the "Code"), and all applicable Regulations issued thereunder. The methodology used is consistent with current tax law and regulations and may be relied upon in determining the rebate liability. Certain computational methods used in the preparation of the schedules are described in the Summary of Computational Information and Definitions.

Our engagement was limited to the computation of Rebtable Arbitrage based upon the information furnished to us by the District. In accordance with the terms of our engagement, we did not audit the information provided to us, and we express no opinion as to the completeness, accuracy or suitability of such information for purposes of calculating the Rebtable Arbitrage.

We have scheduled the next Report as of June 30, 2022. Thank you and should you have any questions, please do not hesitate to contact us.

Very truly yours,

Michael J. Scarfo
Senior Vice President

SUMMARY OF COMPUTATIONAL INFORMATION AND DEFINITIONS

COMPUTATIONAL INFORMATION

1. For purposes of computing Rebatale Arbitrage, investment activity is reflected from June 23, 2020, the date of the closing, to June 30, 2021, the Computation Period. All nonpurpose payments and receipts are future valued to the Computation Date of June 23, 2025.
2. Computations of yield are based on a 360-day year and semiannual compounding on the last day of each compounding interval. Compounding intervals end on a day in the calendar year corresponding to Bond maturity dates or six months prior.
3. For investment cash flow, debt service and yield computation purposes, all payments and receipts are assumed to be paid or received respectively, as shown on the attached schedules.
4. Purchase prices on investments are assumed to be at fair market value, representing an arm's length transaction.
5. During the period between June 23, 2020 and June 30, 2021, the District made periodic payments into the Debt Service Fund that were used, along with the interest earned, to provide the required debt service payments.

Under Section 148(f)(4)(A), the rebate requirement does not apply to amounts in certain bona fide debt service funds. The Regulations define a bona fide debt service fund as one that is used primarily to achieve a proper matching of revenues with principal and interest payments within each bond year. The fund must be depleted at least once each bond year, except for a reasonable carryover amount not to exceed the greater of the earnings on the fund for the immediately preceding bond year or 1/12th of the principal and interest payments on the issue for the immediately preceding bond year.

We have reviewed the Debt Service Fund and have determined that the funds deposited have functioned as a bona fide debt service fund and are not subject to the rebate requirement.

DEFINITIONS

6. Computation Date

June 23, 2025.

7. Computation Period

The period beginning on June 23, 2020, the date of the closing, and ending on June 30, 2021.

8. Bond Year

Each one-year period (or shorter period from the date of issue) that ends at the close of business on the day in the calendar year that is selected by the Issuer. If no day is selected by the Issuer before the earlier of the final maturity date of the issue or the date that is five years after the date of issue, each bond year ends at the close of business on the anniversary date of the issuance.

9. Bond Yield

The discount rate that, when used in computing the present value of all the unconditionally payable payments of principal and interest with respect to the Bonds, produces an amount equal to the present value of the issue price of the Bonds. Present value is computed as of the date of issue of the Bonds.

10. Taxable Investment Yield

The discount rate that, when used in computing the present value of all receipts of principal and interest to be received on an investment during the Computation Period, produces an amount equal to the fair market value of the investment at the time it became a nonpurpose investment.

11. Issue Price

The price determined on the basis of the initial offering price at which price a substantial amount of the Bonds was sold.

12. Rebatable Arbitrage

The Code defines the required rebate as the excess of the amount earned on all nonpurpose investments over the amount that would have been earned if such nonpurpose investments were invested at the Bond Yield, plus any income attributable to the excess. Accordingly, the Regulations require that this amount be computed as the excess of the future value of all the nonpurpose receipts over the future value of all the nonpurpose payments. The future value is computed as of the Computation Date using the Bond Yield.

13. Funds and Accounts

The Funds and Accounts activity used in the compilation of this Report was received from the District and US Bank, Trustee, as follows:

Fund / Account	Account Number
Revenue	242931000
Sinking	242931001
Interest	242931002
Prepayment	242931003
Debt Service Reserve	242931004
Project Rating Agency	242931005
Acquisition & Construction	242931006
Cost of Issuance	242931007

METHODOLOGY

Bond Yield

The methodology used to calculate the bond yield was to determine the discount rate that produces the present value of all payments of principal and interest through the maturity date of the Bonds.

Investment Yield and Rebate Amount

The methodology used to calculate the Rebateable Arbitrage, as of June 30, 2021, was to calculate the future value of the disbursements from all funds, subject to rebate, and the value of the remaining bond proceeds, at the yield on the Bonds, to June 23, 2025. This figure was then compared to the future value of the deposit of bond proceeds into the various investment accounts at the same yield. The difference between the future values of the two cash flows, on June 23, 2025, is the Rebateable Arbitrage.

Re: \$3,325,000 Holly Hill Road East Community Development District (City of Davenport, Florida)
Special Assessment Bonds, Series 2020 (Assessment Area 4 Project)

Dear Ms. Cruz:

AMTEC has prepared certain computations relating to the above referenced bond issue (the "Bonds") at the request of the Holly Hill Road East Community Development District (the "District")

The scope of our engagement consisted of preparing the computations shown in the attached schedules to determine the Rebtable Arbitrage as described in Section 103 of the Internal Revenue Code of 1954, Section 148(f) of the Internal Revenue Code of 1986, as amended (the "Code"), and all applicable Regulations issued thereunder. The methodology used is consistent with current tax law and regulations and may be relied upon in determining the rebate liability. Certain computational methods used in the preparation of the schedules are described in the Summary of Computational Information and Definitions.

Our engagement was limited to the computation of Rebtable Arbitrage based upon the information furnished to us by the District. In accordance with the terms of our engagement, we did not audit the information provided to us, and we express no opinion as to the completeness, accuracy or suitability of such information for purposes of calculating the Rebtable Arbitrage.

We have scheduled the next Report as of July 31, 2022. Thank you and should you have any questions, please do not hesitate to contact us.

Very truly yours,

Michael J. Scarfo
Senior Vice President

SUMMARY OF COMPUTATIONAL INFORMATION AND DEFINITIONS

COMPUTATIONAL INFORMATION

1. For purposes of computing Rebatale Arbitrage, investment activity is reflected from August 25, 2020, the date of the closing, to July 31, 2021, the Computation Period. All nonpurpose payments and receipts are future valued to the Computation Date of August 25, 2025.
2. Computations of yield are based on a 360-day year and semiannual compounding on the last day of each compounding interval. Compounding intervals end on a day in the calendar year corresponding to Bond maturity dates or six months prior.
3. For investment cash flow, debt service and yield computation purposes, all payments and receipts are assumed to be paid or received respectively, as shown on the attached schedules.
4. Purchase prices on investments are assumed to be at fair market value, representing an arm's length transaction.
5. During the period between August 25, 2020 and July 31, 2021, the District made periodic payments into the Debt Service Fund that were used, along with the interest earned, to provide the required debt service payments.

Under Section 148(f)(4)(A), the rebate requirement does not apply to amounts in certain bona fide debt service funds. The Regulations define a bona fide debt service fund as one that is used primarily to achieve a proper matching of revenues with principal and interest payments within each bond year. The fund must be depleted at least once each bond year, except for a reasonable carryover amount not to exceed the greater of the earnings on the fund for the immediately preceding bond year or 1/12th of the principal and interest payments on the issue for the immediately preceding bond year.

We have reviewed the Debt Service Fund and have determined that the funds deposited have functioned as a bona fide debt service fund and are not subject to the rebate requirement.

DEFINITIONS

6. Computation Date

August 25, 2025.

7. Computation Period

The period beginning on August 25, 2020, the date of the closing, and ending on July 31, 2021.

8. Bond Year

Each one-year period (or shorter period from the date of issue) that ends at the close of business on the day in the calendar year that is selected by the Issuer. If no day is selected by the Issuer before the earlier of the final maturity date of the issue or the date that is five years after the date of issue, each bond year ends at the close of business on the anniversary date of the issuance.

9. Bond Yield

The discount rate that, when used in computing the present value of all the unconditionally payable payments of principal and interest with respect to the Bonds, produces an amount equal to the present value of the issue price of the Bonds. Present value is computed as of the date of issue of the Bonds.

10. Taxable Investment Yield

The discount rate that, when used in computing the present value of all receipts of principal and interest to be received on an investment during the Computation Period, produces an amount equal to the fair market value of the investment at the time it became a nonpurpose investment.

11. Issue Price

The price determined on the basis of the initial offering price at which price a substantial amount of the Bonds was sold.

12. Rebatable Arbitrage

The Code defines the required rebate as the excess of the amount earned on all nonpurpose investments over the amount that would have been earned if such nonpurpose investments were invested at the Bond Yield, plus any income attributable to the excess. Accordingly, the Regulations require that this amount be computed as the excess of the future value of all the nonpurpose receipts over the future value of all the nonpurpose payments. The future value is computed as of the Computation Date using the Bond Yield.

13. Funds and Accounts

The Funds and Accounts activity used in the compilation of this Report was received from the District and US Bank, Trustee, as follows:

Fund / Account	Account Number
Revenue	268660000
Interest	268660001
Sinking	268660002
Debt Service Reserve	268660003
Prepayment	268660004
Acquisition & Construction	268660005
Cost of Issuance	268660006

METHODOLOGY

Bond Yield

The methodology used to calculate the bond yield was to determine the discount rate that produces the present value of all payments of principal and interest through the maturity date of the Bonds.

Investment Yield and Rebate Amount

The methodology used to calculate the Rebateable Arbitrage, as of July 31, 2021, was to calculate the future value of the disbursements from all funds, subject to rebate, and the value of the remaining bond proceeds, at the yield on the Bonds, to August 25, 2025. This figure was then compared to the future value of the deposit of bond proceeds into the various investment accounts at the same yield. The difference between the future values of the two cash flows, on August 25, 2025, is the Rebateable Arbitrage.

SECTION 1

MEMORANDUM

To: District Manager, District Engineer
From: District Counsel
Date: August 31, 2021
Subject: Wastewater Services and Stormwater Management Needs Analysis
(Chapter 2021-194, Laws of Florida/HB53)

We are writing to inform you of a new law requiring special districts that either own or operate stormwater management systems, stormwater management programs or wastewater services to create a 20-year needs analysis of such system(s). The requirements relating to wastewater services are found in Section 4 of Chapter 2021-194, Laws of Florida, creating Section 403.9301, Florida Statutes, and the requirements relating to stormwater management programs and systems are found in Section 5 of Chapter 2021-194, Laws of Florida, creating Section 403.9302, Florida Statutes (attached hereto for reference).

A brief summary of the new law and its requirements is set forth below. Please feel free to contact us with any questions.

What is required?

The Office of Economic and Demographic Research (“OEDR”) is expected to promulgate additional details about the requirements of the needs analyses. However, certain general requirements are set forth in the new law.

For wastewater services, the needs analysis must include:

- a) A detailed description of the facilities used to provide wastewater services.
- b) The number of current and projected connections and residents served calculated in 5-year increments.
- c) The current and projected service area for wastewater services.
- d) The current and projected cost of providing wastewater services calculated in 5-year increments.
- e) The estimated remaining useful life of each facility or its major components.
- f) The most recent 5-year history of annual contributions to, expenditures from, and balances of any capital account for maintenance or expansion of any facility or its major components.
- g) The local government’s plan to fund the maintenance or expansion of any facility or its major components. The plan must include historical and estimated future revenues and expenditures with an evaluation of how the local government expects to close any projected funding gap.

For stormwater management programs and stormwater management systems, the needs analysis must include:

- a) A detailed description of the stormwater management program or stormwater management system and its facilities and projects.
- b) The number of current and projected residents served calculated in 5-year increments.

- c) The current and projected service area for the stormwater management program or stormwater management system.
- d) The current and projected cost of providing services calculated in 5-year increments.
- e) The estimated remaining useful life of each facility or its major components.
- f) The most recent 5-year history of annual contributions to, expenditures from, and balances of any capital account for maintenance or expansion of any facility or its major components.
- g) The local government's plan to fund the maintenance or expansion of any facility or its major components. The plan must include historical and estimated future revenues and expenditures with an evaluation of how the local government expects to close any projected funding gap.

When is the deadline?

For both wastewater and stormwater, the first analysis must be created by **June 30, 2022**, and the analysis must be updated every five (5) years thereafter. The needs analysis, along with the methodology and any supporting data necessary to interpret the results, must be submitted to the county in which the largest portion of the service area or stormwater system is located.

What steps should districts take?

District engineers and district managers should begin by evaluating what information is already available to the district, and what new information may need to be gathered. Each district should approve a work authorization for their district engineer to create the needs analysis report and should consider proposals for any outside consulting or evaluation that may be necessary, though in most cases we expect this will not be required. In order to provide ample time for completion of the necessary needs analysis reports, we recommend presenting these items for board consideration no later than the first quarter of 2022, or as soon thereafter as is practical. OEDR is anticipated to provide further guidelines for the reporting requirements, none of which we expect to be particularly burdensome, and which will likely include information readily available to districts' engineering and/or environmental professionals. Once we receive further guidance, we will supplement this informational memorandum.
